

Molo Bafana. Ke bendifuna ukwabelana ngebali lendlela eyenzeka ngayo le ncwadi yoXwilo kunye nobungqina bam obuncinci kuwe. Ndikhulele kwikhaya lamaKrestu ndaza ndaba ngumKristu ndinemyaka eli-13. Ndadibana kakhulu neNkosi eyakhokelela ekubeni ndinikezele ubomi bam kuYe kwaye ndakwazi ukuliva ilizwi laKhe ukusukela ngala mhla ndamkelayo njengo uMsindisi wam. Ngoku ndingumKristu ngaphezu kwemyaka engama-34 kwaye ndikwinkonzo yexesha elizeleyo ngaphezu kwemyaka engama-25 ndikhonza njengomvangeli wasemazweni eAsia. Ndinomyeni omangalisayo kunye nabantwana aba-5 abamangalisayo bonke abathanda uYesu.

Ubudlelwane endinabo kunye neNkosi bundikhokele kwizigqibo ezininzi endizenzileyo ebomini bam bonke. Ukuva ilizwi lakhe kunye nokulandela into andixelele ukuba ndiyenze kundikhokelele kule ndawo ndikuyo namhlanje. Ndinganika imizekelo emininzi yendlela iNkosi ethethe ngayo nam ukuba yenze into kwaye ndathobela kwaye ikhokelele kumvuzo omkhulu okanye indixelele ukuba into izakwenzeka kwaye yenzeke kanye njengoko ibitshilo okanye iimeko apho indikhokelele khona yenza into okanye ungenzi nto kwaye kwavela isigqibo esifanelekileyo. Andikwazi ukukuxelela ngazo naziphi na izehlo apho wathetha nam kwaye yayingeyonyani okanye yandikhokelela ekwenzeni isigqibo esibi endazisola ngaso kamva. Ebesoloko endikhokelela kuyo yonke inyaniso kwaye wayilungisa indlela yam njengoko ndilandele ilizwi lakhe.

INkosi ithetha nam njengomhlobo kwaye indixelele kwizihlandlo ezininzi ukuba ndiyaliva ilizwi laKhe ngokucacileyo kunamanye amakholwa. Andikuthethi oku ukuziqhayisa okanye ukuqhayisa, ukuze nje ndikwazise ukuba ndiyamva ethetha kwaye uthetha ngokucacileyo kum kwaye ndinokucaphula igama negama oko akutshoyo kum kuba yindlela athetha ngayo ngokucacileyo.

Ke ndifuna ukwabelana nani ngento eyenzeka ngoDisemba ka-2000 eyakhokelela ekubeni ndibhale ndigqibe incwadi yoXwilo yoXwilo. Le ncwadi ibingumsebenzi oqhubekayo kwaye ndiqale ukuyibhala ngo-2012, ke kuye kwathatha phantse iminyaka eli-9 ukuyigqiba. Ndisongeza amacandelo amancinci encwadini njengoko iNkosi iqhubeka indibonisa izinto. Ndiqale ukufundisisa ndiphanda yonke indlela ebuyayo ngo-2000 ngoko ke kundithathe ngaphezulu kwemyaka engama-20 ukubeka zonke iziqwenga zepuzzle endaweni yazo.

Ngapha koko, emva kuDisemba 2000. Kulapho ke iNkosi yaqala ukundinika iziqwenga zepuzzle. Ngelo xesha, ndandingazi ukuba undinika iipuzzle kwaye bekungayi kubakho de kube nguJanuwari 2013 apho ndiza kuthi ekugqibeleni ndikubone oko. Kwiminyaka eli-12, ndaziva ndibhidekile kwaye ngokungathi iNkosi indikhohlisile ngandlela thile kuba andiqondanga ukuba indinika iziqwenga zamaphazili eziza kudibana ukuze zikhombe imihla ethile yoxhwilo kunye nokuBuya kukaKrestu kwesibini. emhlabeni. Ukusukela ngoDisemba 2000 kude kube nguDisemba 2012, bendicinga ukuba iNkosi indibonisa

ixesha loxhwilo kwaye khangе ndiqonde ukuba indinika nje iziqwenga zepuzzle enkulu eya kuthi ekugqibeleni ilingane.

Ke, ngoDisemba 2000, iNkosi yeza kum xa ndandithandaza yandixelela ukuba iza kum njengoko yayize kuSolomon kwaye izakundinika into ibenye. Undixelele ukuba ndicinge kakuhle phambi kokuba ndithathe isigqibo ngoba uzakundinika nantoni na endiyicelayo kuye. Emva kokujonga ixesha elithile ukuba ndibuze ntoni, ndibuyele kuye ndineminqweno yam emikhulu. Eyokuqala yayikukuba xa ndema phambi kwakhe ngeMini yoMgwebo ukuba ndiyokuma phambi kwakhe ngentliziyo emsulwa kwaye uyakonwaba yindlela endabuphila ngayo ubomi bam. Umnqweno wam wesibini omkhulu yayikukuba asebenzise ubomi bam ukufikelela kwizigidi zabantu kuBukumkani bakhe. Andikhange ndigqibe kwelokuba ngowuphi umnqweno omkhulu de ndacinga ngevesi ethi ungalifumana ilizwe liphela kodwa uphulukane nomphfumlo wakho. Ndacinga ukuba kunokwenzeka ukuba ndiphumelele ihlabathi ngenxa kaKristu kwaye ndilahlekelwe ngumphfumlo wam. Ke ndayixelela iNkosi ukuba ukuba ndinokukhetha into ibe nye, iya kuba yeyokuqala. Undixelele ukuba ndikhethе ngobulumko.

Emva koko wandibuza, "Ukuba ungoyena mncinci eBukumkanini bam ngonaphakade kwaye ukuba wonke umntu kuwo onke amaphakade ucinga kancinci ngawe, kodwa ukuba ndiyakholiswa nguwe, ingaba kulungile nawe?" Lowo yayingumbuzo onzima kakhulu kum ukuba ndiwuphendule kuba ndandifuna ukuthathelwa ingqalelo enkulu kubukumkani bakhe kwaye ndingafuni mntu ukuba andijongele phantsi, ngakumbi nangonaphakade. Kodwa ndiye ndaqonda ukuba eyona nto ibaluleke kakhulu kukuba iNkosi iyakholiswa ndim kwaye ayinamsebenzi ukuba ukhona omnye umntu. Ke, ekugqibeleni ndamxelela, "Ewe, izakulunga kum."

Kwakufutshane nje emva kokuba kwenzeka oku, ndandinephupha malunga nomakhulu wam owasweleka malunga neminyaka eli-9 ngaphambili. Ndandisondele kakhulu kuye kwaye wayenempembelelo enkulu ebomini bam kunye nesigqibo sokulandela iNkosi. Iphupha lalinyani kwaye kwakubonakala ngathi ndichithe ubusuku bonke ndithetha naye nje kunye naye. Ukuvuka kwam, intliziyo yam yaziva yonwabile ngokungathi bendihleli naye. Inye into esasiqhele ukuyenza kunye yayihlala ibeka iipuzzle ndawonye. Wayekuthanda ukwenza iiphazili. Bendingazithandi iiphazili ngelo xesha, kodwa bendikuthanda ukuchitha ixesha naye kwaye bendizokumjoyina kwezi phazili zinkulu ezaziza kuthatha iiveki ukugqiba. Uthando lwam lweepuzzle luqale ngeeyure ezininzi esizisebenzisileyo kunye. Andizange ndazi ngelo xesha ukuba iNkosi yayizakundinika iiphazili enkulu kunayo yonke eyokudityaniswa kunye nokuba yayiza kundinika isiqwenga sokuqala kwiphazili.

Kungekudala emva kwephupha, iNkosi yathetha nam yathi uJanuwari 1 ngumthendeleko weeNtlongo weeNtlanga. Andikho kakhulu kwisiprofeto seBhayibhile,

kodwa ndandivile ngomthendeleko wamaXilongo kwaye ndandisazi ukuba amanye amaKristu afundisa ukuba uxhwilo luza kwenzeka ngomthendeleko wamaXilongo, ndaye ndazibuza ukuba ingaba iNkosi ibindixelela ukuba uxhwilo luzakwenzeka ngoJanuwari 1 , eyayisele iintsuku nje ezimbalwa ukuba kude. Ndandinemincili kakhulu. Akhonto yenzekileyo ndazibuza ukuba uthetha ukuthini. Nge-4 kaJanuwari, malunga ne-1 kusasa, iNkosi yathetha nam yathetha la mazwi: “Uyakuba njengoYohane uMbaptizi kwaye uza kubhala into eza kunceda ukusindisa izigidi zabantu kule nkohliso izayo. Njengokuba ilizwi lam lifana nexilongo kwaye usuku lokugqibela lweNdalo endiluthethileyo ibingumhla we-6, ngokunjalo nasekupheleni kosuku lwe-6 kunye nokuqala kwe-7, ixilongo lokugqibela liyakukhala. Ndilinde ndize kuwe ekupheleni kosuku lwesithandathu.” Ndikhumbula ndivusa umyeni wam ndimxelela ngento ethethwa yiNkosi kum. Ndaye ndaya ezantsi ndatsalela umnxeba oodade wethu abahlala eMelika ndabaxelela ngento ethethwa yiNkosi. Bendixakiwe. Ndikhumbula ndiziva njengoMariya, xa ingelosi yabonakala kuye yamxelela ukuba uza kuzala uYesu, uNyana kaThixo. Ndaziva ngathi, kutheni le nto iNkosi indikhethile? Andinguye nabani na okhethekileyo, umntu nje oqhelekileyo. INkosi yayinganiki nje kuphela umnqweno wokuqala wentliziyo yam kodwa ikwanesibini. Wayeza kundisebenzisa ukunceda ukusindisa izigidi zabantu.

Ndabhala ileta ndayithumela kwiinkonzo zesiprofeto sexesha lokuphela kunye nabantu endibaziyo ndibaxelela ukuba uxhwilo luza kwenzeka ekupheleni kukaJanuwari 6 okanye ekuqaleni kukaJanuwari 7. Ndacinga ukuba yile nto iNkosi indixelela yona Kwaye ngandlela thile ngokubhala nje loo leta, izigidi zabantu ziya kuyazi iNkosi. Bendingayazi ngelo xesha ukuba wayemane endinika iziqwenga zepuzzle kwaye endiqala kuhambo lweminyaka engama-21. Ndalinda ngoJanuwari 6<sup>th</sup>ndandincokola kwayenje kamnandi neNkosi. Ndikhumbula ndimxelela kanye ezinzulwini zobusuku ukuba bendiqala ukozela ndibuze ukuba uzokuza nini. Undixelele ukuba mandilinde kancinci. Kwimizuzu embalwa emva kobusuku, bendijonge efestileni ndihleli esofeni yam ngequbuliso umzimba wam wonke waqalisa ukungcangcazela. Oku kwahlala mhlawumbi umzuzu okanye njalo. Iqale ngesiquphe yaphela ngesiquphe. Ingcinga yam yokuqala yayikukuba mhlawumbi abafileyo kuKristu basandula ukuvuka kwaye ngoku besiza kuxhwilwa. Ndabuza uNkosi ukuba yintoni le ingcangcazela kwaye wathi mandilinde nje. Ngomzuzu okanye emva koko, umzimba wam waqala ukungcangcazela kwakhona. Ngeli thuba lokungcangcazela okwesibini, umlomo wam waqala ukurhawuzelela, ngokungathi uziva xa ulala ngeenyawo, kodwa uvakalelo lwalusemlonyeni wam, ngakumbi kwimilebe yam. Ndayibuza iNkosi ukuba kutheni imilebe yam ibibinda kwaye yathi imele xa u-Isaya wabona iNkosi kwaye amalahle achukumisa imilebe yakhe kwaye isono sakhe sahlawulelwa. Ukungcangcazela kwaphela ngokukhawuleza. Bendixakiwe kwaye ndizibuza ukuba ingaba ithetha ukuthini yonke le nto. Ndazibuza inoba uxhwilo lwenzekile kanti ndishiywe ngasemva. Ndandinemibuzo emininzi. Ndayiva iNkosi indisongela ngengalo zayo zothando kwaye

indiva ngokungathi iyandiwola. Wandiqinisekisa ngothando lwaKhe kum kwaye wandixelela ukuba kufuneka ndifunde imithendeleko yamaJuda kwaye ndingaya kulala.

Ndithathe ukuba uzokundicacisela yonke into ngentsasa elandelayo ndiye ndalala ndalala. Ngosuku olulandelayo lwafika lwadlula lungekho nkcazo. Kwaye imihla ngemihla beza behamba phantse iminyaka eli-12 kungekho ngcaciso. Ndiyayazi into eyayithethwe yiNkosi kwaye ndafunda imithendeleko kwaye ndazama ukuqonda yonke into, kodwa andikwazi. Ndaziva ndindedwa kwaye ndibhidekile kule minyaka ili-12 kwaye iNkosi ihleli nje indixelela ukuba ndilinde kwaye ngenye imini yonke imibuzo yam iyakuphendulwa kwaye ndiza kuyiqonda yonke into. Ekuphela kwento eyenzekileyo ngenene kule minyaka ili-12 kukuba iBandla loKuzalwa kukaYesu lagqogqwa ngeNtwasahlobo yowama-2002, iintsuku ezili-1290 phambi koMhla wokuhlawulelwa ngo-2005. INkosi yandibonisa ukuba le yayiyinqaba yetempile eyayihlanjelwe ngabantu ibiyindawo engcwele ekubhekiswa kuyo nguYesu kuMateyu 24. Bendisazi ukuba ngenye imini, isikizi elenza intshabalalo liyakwenzeka apho. Ngaphandle kwalonto, bendisazi ukuba umhla we-7 ubalulekile kwaye ndafumanisa ukuba siphila ekupheleni kweminyaka engama-6000 ukusukela ekudalweni, silungele ukuqala iMillenium eNtsha. Bendingazi ukuba zonke ezi zinto ziziqwenga zepuzzle.

INkosi yaqala ukuthetha nam kwakhona ngezi zinto ngo-Agasti 2012, kulapho ndaqala khona ijelo lam lika-YouTube. Undikhombe ngokucacileyo kumhla we-7 weminquba. Kwakhona, ndacinga ukuba undixelela ukuba uxhwilo luza kwenzeka ngala mhla. Xa kungazange kwenzeke, ndaye ndanomsindo ndaza ndabuza eNkosini ukuba kutheni indikhohlisa nje. Ndibuhlungu kakhulu. Ndalinda phantse iminyaka eyi-12 kwaye xa ekugqibeleni wandikhokelela kumhla, akukho nto yenzekileyo kwakhona. Emva kweentsuku ezimbalwa zokuba nomsindo nokuba buhlungu, ndibuyele eNkosini ndaza ndayixelela ukuba ndiyazisola ngesimo sam esibi ndacela uxolo. Ubuze ukuba ndikulungele na ukuqhubeka. Ndothuka. Ndacinga ukuba ndigqibile kwaye konke yayilolunye uhlobo lovavanyo ukubona ukuba ndingamthobela na ndimlandele nokuba bekubonakala ngathi uyandikhohlisa. Ndamxelela ke ukuba ewe, ndikulungele ukuqhubeka-ndingazi nokuba zonke ezi zinto zingamaqhekeza andinika wona eziya kuthi ekugqibeleni zenze ingqiqo kwiminyaka eliqela kamva. Umhla olandelayo wandibhekisa kuwo yayingumhla we-7 weHanukkah. Ndiqinisekile unokuqikelela-akukho nto yenzekileyo ngalo mhla. Kodwa ngeli xesha, bendiqala ukufumana umbono wokuba ukhokelela kwenye indawo.

NgoFebruwari 14, 2013, ndaya kwiziko lam lenkonzo kwaye umntu othile wangena eofisini yam wandinika isipho. Bathe umntu sele emile nje wacela ukuba ndisiphiwe. Enye yeentombi zam yayiseofisini nam kwaye yabuza ukuba ndicinga ntoni. Ndivele ndathi, "Yindida." Andinalwazi lokuba ndayazi njani loo nto, kodwa ndive nje ukuba yayiyimpazamo, nangona ndandingazange ndinikwe iphazili ngaphambili njengesipho.

Ndayivula, kwaye ngokuqinisekileyo, yayiyiphazili. Ndacinga, kulungile ke oko. Akho gama. Andazi ukuba ivela kubani. Ndaye ndagoduka ndafika ndayidibanisa ngeyure nje ezimbalwa. Yayiyimpazamo emangalisa kakhulu endakha ndazenza ngaphandle kwamaqhekeza ekona okanye iziqwenga zomda kwaye zonke iziqwenga zazineemilo ezahlukeneyo kunye nobukhulu. Ezinye iziqwenga zazikhulu kwaye ezinye zazincinci. Yayiyindumasi entle kwaye ndathi ndakuyijonga, ndabuva ubukho beNkosi. Ndikhumbule umakhulu wam nephupha endiliphuphileyo. Ndaqonda ukuba lusuku lweValentina. Kwaye kulapho ndaye ndaqonda ukuba le yayiyimpazamo kwaye iNkosi yayindinika isiqwenga esinye ngexesha kwaye ngolunye usuku, iyakuhlangana yonke kwaye ivakala kakuhle.

Kwakule nyanga inye kaFebruwari 2013, ngethuba uMnu Obama wabhengeza icebo lakhe lokuya eYerusalem. Kwakukho intetho eninzi kwiiwebhusayithi ezithile zesiprofeto ngaye malunga nokuma kwiNtaba yeTempile kwaye ukuba lisikizi lesiphanziso. Ndiqale ukufunda ukuba abanye abantu babecinga ukuba u-2009 sisiqalo seveki ka-70 kaDaniel kwaye babona ukuba uMnu. ukuqala kuka-Kislev 24. Ndabona ukuba uHagayi 2 wakhomba kulaa mihla ngqo ngokubhekisele kwiNkosi inyikima izulu nomhlaba nokuzisa iminqweno yazo zonke izizwe kuye. Ndizibalile iintsuku eziyi-1260 ukusukela ngethuba uMongameli u-Obama wakhethwa njenge-Nobel Peace Prize kwaye wafika ngo-Matshi 22, 2013. Ndathi ngaphakathi kwam, ukuba uMnu. umhla, lelo lisikizi lesiphanziso kwaye oko kuthetha intshabalalo ilungile emva koko, ekufuneka ibandakanye umsitho woxhwilo. Kodwa ngelo xesha, uMnu. Xa ekugqibeleni

wabhengeza icebo lakhe lokuya kwiCawa yokuzalwa kukaYesu, andizange ndikholelwe. Ekugqibeleni kwenzeka.

Abanye benu basenokuzibuza ukuba kwenzeka njani emhlabeni u-Obama emi e grotto yayisisikizi eNkosini kwaye nendlela eyayimisa ngayo idini lemihla ngemihla. Ewe, yonke imihla, amakhulu kunye namawaka abantu abavela kwihlabathi liphela bazimisa kwiCawa yokuzalwa kukaYesu ukuza kunikela umbingelelo wendumiso kunye nokunikela umbulelo eNkosini ngokuza emhlabeni ukuhlawulela izono zabo nokunikela. ubomi obungunaphakade. Eli lidini elikholisayo uNdikhoyo. Ngosuku apho u-Obama

negqiza lakhe baya khona, akwabikho mntu uvunyelweyo ukuba angene. Umbingelelo wendumiso kunye nombulelo uyekile ngalo mhla, kwaye ndiyakuqinisekisa ukuba akazange aye apho ukuya kunika indumiso okanye umbulelo kuYesu ngokuza kwakhe emhlabeni. Ngelixa singazi ukuba kungenzeka ukuba kwenzeka ntoni njengoko wayemi e-grotto, into endiqinisekile ngayo kukuba intliziyo yakhe yayingathobekanga kwaye akazange abulele kuYesu okanye amvume njengeNkosi. Ndiqinisekile ukuba ngenye imini siyakukwazi konke okwathethwa nguMnu.Obama, nokuba bekuvakala ngokuvakalayo okanye kwiingcinga zakhe zangasese, yayiyinto ecekisekayo eNkosini ngalo mhla. Nokuba yayiyintoni na, yayisisikizi eNkosini kangangokuba yaqala ukubala iintsuku ezingama-40 ukuya kwintshabalalo yaseMelika nakwilizwe liphela.

Emva kokwenzeka kweli lisikizi, INkosi yandikhomba kumhla we-7 weSonka esingaNyuswanga kwaye yandibonisa ukuba ikhalenda yamaJuda icinyiwe ngenyanga ka-2013. Ndazibala iintsuku, ndabona ukuba ziintsuku ezingama-40 ukususela ngelishesha lesikizi izakwenzeka de kube kwenzeka ukuphaziswa- Wayenika ixesha leentsuku ezingama-40 eMelika njengokuba wenzayo eNinevah. Ndizibalile iintsuku eziyi-1290 ukusuka kumhla wesikizi kwaye zafikelela kuMthendeleko wamaXilongo ngo-2016. Ndabala iintsuku ezili-1260 ukusuka kumhla wenyani wesi-7 weSonka esingenagwele kwaza kwafika uMhla wokuCamagushela ngo-2016. ifike ekuqaleni kweHanukkah ngo-2016. UDaniel 12 usixelela ukuba abo bafikelela esiphelweni seentsuku ezili-1335 baya kusikelelwa kwaye uHagayi 2 usixelela ukuba kude kube ngumhla wama-24 wenyanga ye-9, okanye uHanukkah Eve, kungekho siqhamo umkhiwane, kodwa ukusukela namhlanje uye phambili siza kusikelelwa. Usuku olusikelelekileyo lusuku lokuqala lweHanukkah ekupheleni kwenani leentsuku ezili-1335 kwaye oku kuya kuba kukuxhwilwa okwesibini, kulandele uKuza kweSibini kukaKristu emhlabeni kwiveki kamva. Ezi zehlo zikayise wesibini nowesithathu ezichazwe kwiSityhilelo. Onke amanani alingana. Ndandinemincili kakhulu. Kodwa ngoMeyi 2, 2013, weza wadlula engakhange abekho uxhwilo okanye isiphanziso. Kwakhona, ndandididekile. Kodwa iziqwenga ezininzi zepuzzle ziyadibana ukuze ndiphose iphazili kwaye ndithi ayilunganga. Kwakufuneka ndiphoswe yinto, kodwa yayiyintoni?

Malunga neenyanga ezi-5 kamva, ngo-Okthobha u-2013, ndaphinda ndavakalisa ukukhathazeka kwam eNkosini kwaye ndiyibuza ukuba kutheni ingafikanga xa iZibhalo zikhomba ngokucacileyo ngoMeyi 2, 2013. Ndathi, "INinivah iguqukile kwaye ulibazisile isigwebo sakho. . Le phazili iyavakala kuphela xa iMelika iguqukile, kodwa khangе iguquke, khona kutheni ulibazisile ukugweba kwakho? Yaphendula ke iNkosi yathi, Areqinisekile na ukuba akukho nyani? Ndathi, "Ewe ndiqinisekile ngendiyivile loo nto ukuba iMelika ibingaguquka." Uthe, "Ulahlekelwe yinto ebalulekileyo. Yifumane." Oko kwandinika ithemba-mhlawumbi ndiphoswe yinto. Ndiye ndachwetheza kuGoogle into efana neMelika eguqukayo ngoMeyi 2013 kwaye ndafumana indawo eyayithetha ngelishesha leentsuku ezi-3 zokuthandaza nokuzila ukutya ezaqala ngo-Epreli 30 zaza

zaqhubeka zade zangomhla wesi-2 kuMeyi 2013. Ngo-Epreli 24, 2013, ngo-3- ukuzila kwemini kwabizwa ziinkokheli zebandla kwihlabathi liphela kwaye ubuncinci izizwe ezingama-28 zithathe inxaxheba koluzila. Ndabona indlela amakholwa avela kwihlabathi liphela awayekhale ngayo eNkosini ngezo ntsuku zintathu zimcela ukuba abe nemfesane eMelika. Nge-30 ka-Epreli yayiliSuku lweSizwe lokuGuquka eMelika kwaye uMeyi wesi-2 yayinguMhla weSizwe woMthandazo eMelika. Isikhalo sehlabathi lonke senyuka saya eNkosini kangangeentsuku ezi-3 sicela uThixo ukuba abe nemfesane eMelika kanye ekupheleni kwexesha leentsuku ezingama-40 zokulingwa. Ndikhalile. Ndahleka. Ndifumene isiqwenga esilahlekileyo. UNdikhoyo ke wathi: “Khumbula uEstere.” Ndacinga ukuba yayiyintombi enyulu eyonyuliweyo emele uMtshakazi kaKrestu kwaye wacela njani abantu bakowabo ukuba bazile ukutya iintsuku ezi-3 kuba babeza kubulawa. Ngomhla wesithathu wokuzila ukutya wabeka ubomi bakhe emngciphekweni kwaye wasondela kuKumkani ukuzama ukusindisa abantu bakhe ekubhujisweni kwaye ekugqibeleni, isicelo sakhe samkelwa kwaye abantu bakhe basinda. Ndabona isandulela sebali likaYona noEsther ndaqonda ukuba iNkosi iyalibazisa ukugweba kwakhe. Kwaye ke ndabona kuMateyu 25 nakwiSityhilelo 10 ukuba oku kulibaziseka kuyafumaneka kwiZibhalo. Ndaye ndazimisela ukufumanisa ukuba oku kulibaziseka kuya kuphela nini.

Ngexesha elithile ngeli xesha, iNkosi yandinika isiqwenga sephazili sokulibaziseka kweminyaka emi-4 efunaneka kumzekeliso womkhiwane. Khange ndide ndiqonde kude kube yiminyaka kamva ukuba uYesu uyalatha kumzekeliso womkhiwane kuMateyu 24, osisahluko konke malunga noxhwilo kunye nokuBuya kwesiBini. Ndiqhubeke ndibeka esi siqwenga kwindawo engeyiyo kwaye ndihlala ndikhomba ku-2016 njengomnyhadala wokuBuya kwesiBini. Ndandinabantu ababhalayo babuza ukuba uphi umqondiso kaMateyu 24 ngo-2016 - uYesu wasinika ngokucacileyo umqondiso wokuba siwubukele oza kwenzeka ngexesha lomsitho wokuBuya kwesiBini, oko kukuthi ilanga liyakuba mnyama, inyanga ayizukunikeza ukukhanya kwayo kwaye iinkwenkwezi zaziya kuwa ezulwini. Khange ndilufumane olo phawu kufutshane naseHanukkah ye2016 kwaye bendibhidekile. Zonke iziqwenga zikhombe ku-2016 njengokuphela kweveki kaDaniel yama-70 kunye nokuBuya kwesiBini kukaKristu. INkosi yayisilibazisa isigwebo sayo njengoko yayisithi iya kwenza kuMateyu 25 nakwisiTyhilelo 10 kunye nokunciphisa iintsuku zembandezelo njengoko watshoyo kuMateyu 24. Ke kwakutheni ukuze lo mqondiso ungafunyanwa ngexesha leHanukkah ngo-2016? Yayiyiyo kuphela into endingenakuyifumana.

Xa iHanukkah ye2016 isiza idlula, ndicinge ukuba kuphelile. Ngokucacileyo, sasingekho kwiveki ka-70 kaDaniel kwaye zonke ezi ziganeko zenzeka phakathi kuka-2009 no-2013 kumele ukuba zazingumboniso nje wezinto ezakwenzeka kwixesha elizayo. Kodwa ngandlela thile bendisazi ukuba ayilunganga kwaye bendisazi ukuba iNkosi indibonisile ezi zinto kwaye kufuneka ukuba ndisaphoswa yinto. KwakungoJanuwari ka-

2017 xa ndathi ekugqibeleni ndabeka isiqwenga somfanekiso womkhiwane kwindawo elungileyo. Kwakungazange kwenzeka kum ukuba iNkosi iyayimisa i-70th yeveki ka-Daniyeli embindini wenqanaba kwaye inike ukulibaziseka kweminyaka emi-4 ukubona ukuba i-Melika iyakuthi ivelise iziqhamo okanye hayi. Lo nyaka wesine yayingunyaka wonyulo kwaye iNkosi yayifuna ukunika iMelika elinye ithuba lokukhetha inkokheli eyayizakuzama ukubuyisela isizwe ekuziphatheni nakwimigangatho yeBhayibhile. INkosi yamisa iiveki ezingama-70 zikaDaniel kanye ngomhla we-7 weSonka esingenagwele ngo-2013 ngoSuku loMthandazo weSizwe eMelika, ngosuku lwesithathu lokuzila ukutya kweentsuku ezi-3 zoMtshakazi kaKristu kwihlabathi jikelele apho babemkhalela khona. Yiba nenceba eMelika, emva koko wayiqala kwakhona ngomhla we-7 weZonka ezingenagwele ngo-2017, ngexesha loNyaka weNtlokoma. Ndonwabe kakhulu xa ndathi ekugqibeleni ndabeka esi siqwenga sephazili apho sasikhona. Kodwa ndingaqiniseka njani? Ndayazi ukuba yayinye kuphela into eyayilahlekile kwi-2016-umqondiso welanga ubumnyama, inyanga inganiki ukukhanya kwayo kunye neenkwenkwezi eziwa esibhakabhakeni. Ndijonge kwaye ndiqinisekile ngokwaneleyo, kwabakho ukusithwa kwelanga lilonke ngosuku lwesibini lweHanukkah ngo-2020. Ndisazi ukuba ukuBuya kwesiBini kuyakwenzeka ngexesha leHanukkah ekupheleni kwenani leentsuku ezili-1335 kwaye uYesu wathi ngoko nangoko emva kokuphela kwembandezelo enkulu, le miqondiso mithathu iya kwenzeka. Ke, bendinenye yeempawu ezi-3 ngomhla ochanekileyo. Kodwa kwakungekho kusithwa kwelanga yinyanga, ngoko ndadimazeka. Ndaye ndalala ngobo busuku kwaye iNkosi yandicela ukuba ndicinge ngento enokubangela ukuba inyanga inganikeli ukukhanya kwayo ngaphandle kwe-Eclipse. Kuthathe ixesha, kodwa ndiye ndaqonda ukuba kanye ngenyanga inyanga ayiniki kukhanya. Into yokuqala endiyenzileyo ngentsasa elandelayo xa ndivuka yayikukujonga kugoogle ukubona ukuba ngoDisemba 14, 2020, ngaba yayingumhla apho inyanga ingakhanyisi, kwaye uqikelele ntoni? Ibiyi! Ndandiba nemincili nangakumbi! Andizange ndazi ukuba iinkwenkwezi eziwa esibhakabhakeni zithetha ntoni ngoko ndacinga ukuba mhlawumbi ibhekisa kuhlaselo lwasemzini okanye kuthi sonke xa sibuya noKristu emhlabeni ngoDisemba 13. Emva koko omnye umntu wandibhalela wandixelela ukuba i-Geminid meteor shawa incopho nge-13 no-14 kuDisemba minyaka le kwaye ndayijonga kwaye ndiqinisekile ngokwaneleyo, yayinyani. Sasinophawu uYesu awasixelela ukuba luyakwenzeka ekuBuyeni kwesiBini kukaKrestu emhlabeni-ilanga liya kwenziwa mnyama, inyanga inganikeli ukukhanya kwayo neenkwenkwezi ziwe ezulwini.

Ke, ndiyabona ukubayama-70 kaDaniel ivekiiphela ngo-2020.

KuMateyu 24, isahluko apho uYesu athetha nathi ngeziganeko zexesha lokuphela, Usikhumbuza ukuba sifunde umzekeliso womkhiwane. Uthini umzekeliso womkhiwane? Libali elilula elathethwa nguYesu ngomthi wamakhiwane owanikwa iminyaka emithathu ukuba uvelise isiqhamo. Umnini uza emva kweminyaka emithathu ekhangelela iziqhamo,

kodwa angafumani kwaye ufuna ukuba umgadi wegadi ayigawule. Kodwa umntu osebenza egadini ucela unyaka wokugqibela ukuba awuthathele emthini ngaphambi kokuba awugawule kwaye umnini uyavuma. Ke, umthi unikwa iyonke iminyaka emi-4 ukuba ivelise isiqhamo. Umthi okulo mzekeliso ikwangulaa mthi siwufumana kuDaniel 4, oliphupha elanikwa uNebudekanezari malunga nomthi oza kugawulwa. Lo mthi wawumkhulu kakhulu kwaye umhle kwaye wondla umhlaba. Lo mthi yiMelika. Isikhumbuzo sethu sokuqala seLizwe sibizwa ngokuba yi-Devil's Tower kwaye sijongeka njengesiqu somthi esikhulu esigawuliweyo. INkosi isishiyele yonke le miqondiso ukuze sazi ukuba umzekeliso uthetha ngeMelika, uSirayeli omtsha wemihla yokugqibela, isizwe esondla umhlaba, hayi ngokwasemzimbeni kuphela, kodwa nangokomoya. Melika, luhlanga olukhulu oluye lwamshiya uThixo, ukumkanikazi oqhayisayo weSityhilelo 18, othi ngamini-nye azifeze izibetho zakhe. Oku kuthetha ngoMhla weNkosi, umhla wokugqibela wama-70 kaDaniel w.lveki Kukulo suku, ekungunyaka ubude, ekufanele ukuba anqunyulwe atshabalaliswe, angaphinde avuke.

Ke, ukubuyela umzekeliso, kwakutheni ukuze umthi unikwe unyaka wesine uvelise isiqhamo? Ewe, unyaka wesine ngewaqa-7 wesi ngomhla weweSonka esingenagwele ngo-2016 ukuya kumhla-7 kwisonka esingenagwele ngo-2017. Kwenzeka ntoni kulo nyaka eMelika, ukusukela ngeNtwasahlobo yowama-2016 ukuya eNtwasahlobo yowama-2017? Kwakungunyaka wonyulo eMelika. Iminyaka esi-8, i-Melika yayikhethe umongameli owayemele kwaye emele yonke into echasene neBhayibhile kunye ne-anti-Christian. Ngaba iMelika iyakuqhubeka nokuhamba ngale ndlela, okanye ngaba ilizwe liza kubeka indoda emandleni emele imigaqo yobuKristu kunye neyeBhayibhile? I-Melika ikhethe ngokuchanekileyo kwaye umkhiwane waqala ukuvelisa iziqhamo kwakhona. Ubalo lweentsuku ezingama-1260 no-1335 kaDaniel nesiTyhilelo zaqala kwakhona ngomhla we-7 weZonka esingenagwele ngo-2017 zaza zaphela ngoSuku lweNtlawulelo ngo-2020 kunye nokuqala kweHanukkah ngo-2020.

Ke, ukuba kuyinyani, kutheni le Uxhwilo alwenzeki ngomhla we-7 weSonka esingenagwele ngo-2017? Umfazi wesiTyhilelo 12, okanye uMtshakazi kaKristu, uza kuthathwa asiwe kwindawo ayilungiselelwe nguThixo iintsuku ezili-1260 ngaphandle kwenyoka. Kulapho siqala khona ukuthatha iziqwenga zepuzzle kwaye sizibeka endaweni. U-Yesu usixelele ukuba ngaphandle kokuba loo mihla inqunyulwe, akukho nyama iya kuphila ezayo. Usixelele kuMateyu 25 nakwisiTyhilelo 10 ukuba ukuza koMyeni kuza kulibaziseka. Sele sibonile ukuba kukho ukulibaziseka kweminyaka emi-4, kodwa oko kulibaziseka akubandakanyi ukufinyezwa kweentsuku. Ukulibaziseka kwesibini kwaqala ngomhla we-7 weSonka esingenagwele ngo-2017 kwaye kwabandakanya ukufinyezwa kweentsuku zemandezelo enkulu yabangcwele abasekhohlo ngasemva. U-Yesu usixelele ukuba kungenxa yabanyuliweyo le mihla iyakunqanyulelwa. Kungenxa yabangcwele Bakhe ngasemva abancitshisayo kule mihla, ukuze abanye basinde kwiintsuku ezimbi ezizayo. Siyazi ukuba intliziyo yakhe

ikwezo zilahlekileyo kwaye uya kushiya ezingama-99 ayokufumana ela gusha ilahlekileyo. Ubambe imikhosi yobumnyama ixesha elide, ukuze abantu abaninzi bangene eBukumkanini bakhe kwaye abo bangathathwanga kuxhaso lokuqala abayi kuba neminyaka yokubandezeleka kunye nembandezelo kwaye bonke babulawe ngokungathathi Uphawu lwerhamncwa.

Ke ngoko, sibuyele kumbuzo... kwakutheni ukuze umsitho wokuqala woxhwilo ungenzeki ngomhla we-7 weSonka esingenagwele ngo-2017? Kumzekeliso womkhiwane, ukugawulwa komthi kuxhomekeke ekubeni iziqhamo ziyafumaneka na emthini. UYesu weza efuna isiqhamo kumkhiwane ngomhla we-11 kuNisan. Umgwebo wawuza kuqala ngomhla wama-21 kuNisan. Ngaba ikhona into eyenzekileyo ngeli xesha leentsuku ezili-10 ebinokuphinda ilibazise umgwebo kaThixo kwaye iqale ukunciphisa iintsuku uYesu awayethetha ngazo? Ngomhla wesithathu wezonka ezingenagwele, okanye umthendeleko wentlahlela ngowama-2017, uMongameli uTrump watyikitya umthetho oyilwayo oza kubuyisa imali kubuzali obucwangcisiweyo. Eli ibilixesha lokuqala ukuba nawuphina uMongameli wase-US enze nantoni na ukuzama ukunqanda ukukhupha isisu okoko kwamiselwa ngokusemthethweni ngo-1973. Sibona kaninzi kwiTestamente eNdala apho kukhankanywa ukuba ukumkani wenza ububi emehlweni eNkosi. kananjalo ukumkani wenza okuthe tye emehlweni kaYehova. Kubaluleke kakhulu eNkosini ukuba ubunkokheli besizwe benzani kwaye inika intsikelelo okanye ibamba intsikelelo esekwe ekubeni iinkokheli zenza okubi okanye okulungileyo. Oko uMongameli uTrump kunye neenkokheli zaseMelika bakwenzayo ngexesha lomthendeleko wezonka ezingenagwele nangexesha lomthendeleko waseHanukkah ngo-2017, balusindisa uhlanga kunye nehlabathi liphela kwisigwebo sikaThixo kwaye banceda ukunciphisa iintsuku zembandezelo. Xa uMnu Obama wayemi endaweni engcwele ngomhla<sup>weshumi elinanye</sup> kuNisan, engamnquli uYesu okanye azithobe phambi komdali wakhe, esi senzo sasiyinto ecekisekayo eNkosini. UThixo wayeza kuzisa isigwebo esingummangaliso eMelika ngenxa yesi senzo, kunye nezinye izinto ezininzi ezikhokelela kolu lawulo luka-Obama. Kodwa imithandazo yabantu bakaThixo kwihlabathi liphela yayiwubuyisa umva umgwebo wakhe ngeloxesha kunye nezenzo zobunkokheli obutsha base Melika babamba umva umgwebo wakhe kwakhona ngo 2017. Kodwa usibonisa eLizwini lakhe kanye ukuba zingaphi iintsuku lo mgwebo uzobanjwa ukusuka kulibaziseko lokuqala kude kube ukulibaziseka kokugqibela. Iballi lonke lityhilwe eLizwini laKhe kwaye ngoku liyatyhilwa, njengoko uDaniel 12: 4 esixelele ukuba liyakuba yiyo ngemihla yokugqibela.

Ukuba ufunda incwadi yoPhango loXwilo okanye ubukele incwadi yoXwilo yoXwilo kwividiyo okanye nakwisishwankathelo sencwadi, ndiza kungena kwiinkcukacha malunga nokulibaziseka okulandelayo okwenzeka ngexesha leHanukkah yango-2017. ikomkhulu lakwaSirayeli. Oko yayikukulibaziseka kwesithathu kwaye iintsuku Zembandezelo Enkulu zaqhubeka nokuncitshiswa. Oku kulibaziseka kwaphela

ngeHanukkah 2019, xa kwaqala uSuku lweNkosi, okanye ukuqala kosuku lokugqibela lweveki kaDaniel yama-70 . Ukulibaziseka kwesine kuqale ngexesha leHanukkah yowama-2019.lwesi-7 Usukuka-70 kaDaniel lwalususela kwivekieHanukkah 2019 lusiya eHanukkah 2020. Yonke into yalatha kulo nyaka njengesiqalo somgwebo kaThixo emhlabeni, usuku lokugqibela lweveki kaDaniel yama-70 . Xa kungekho nto yenzekileyo, iNkosi yandixelela ukuba ndikhangele umqondiso welanga ubumnyama, inyanga inganiki ukukhanya kwayo kunye neenkwenkwezi eziwa esibhakabhakeni ngoDisemba 2021 ngexesha leHanukkah. Ngokuqinisekileyo, ikhona. Sinokusithwa kwelanga lilonke ngoDisemba 4, inyanga entsha (xa ingakhanyisi) nge-4 kaDisemba nosuku lokuqala lwesithambiso se-Geminid meteor ngo-Disemba 4, eyona nto ibaluleke nangakumbi kunosuku olusukela ngalo kusuku olungaphambi (kuDisemba 3), iinkwenkwezi aziwa. UDisemba 4, 2021, lusuku lwe-6 lweHanukkah. INkosi yayisele indibonisile ukuba umhla we-7 weHanukkah uya kuba kukuBuya kwesiBini kukaKristu emhlabeni, njengoko kwakufanekiselwa kukuthwesa ukumkanikazi uEstere oyintombi ngaloo mhla. Ke, oku kuya kulunga ngakumbi kwiphazili, kunye neNkosi eqokelela abanyulwa bayo ukusuka esiphelweni samazulu ngomhla we-6 weHanukkah ukubuyela emhlabeni ngomhla we-7 weHanukkah. Kodwa iNkosi ingalongoza njani olunye usukuka-70 kaDaniel kwivekikwaye kutheni esenza oku?

Uye wandikhumbuza ke indlela8 usuku lwe-olongozwe ngalo kuMthendeleko wemiNquba kunye nendlela umthendeleko wezonka ezingenagwele kunye neTabernakele ebonisana ngayo, ngaphandle kokuba kwiTabernakele umhla we-7 weSabatha ubuyiselwa emva8 kusuku lwe-. Undikhumbuze ukuba waphumla ngomhla wesixhenxe weNdalo, ebonisa indlela ayakuphumla ngayo ngomhla we-7 . Kwaye ndaqala ukuqonda ukuba uThixo akangekhe azise isigwebo saKhe ngo-2020, kuba uMongameli uTrump wayeseseofisini kwaye wayesebenza njengomqobo womgwebo kaThixo emhlabeni. Kwakufuneka asuswe ngaphambi kokuba umgwebo kaThixo uqale ngo-2021. Yiyo loo nto iZibhalo zikhankanya "ixilongo lokugqibela". Olunye uluvo iNkosi esishiyele lona ukuba emva kokuba uTrump eshiye isikhundla, umgwebo kaThixo ungaqala.

Ke ngoku silapha ngo-2021, umhla we-8 ka-70 kaDaniel kwiveki. Umhla weNkosi. Uqhubekile nokulibazisa ukugweba kwaKhe kwaye wayifinyeza imihla ngenxa yabanyulwa baKhe. Kwabo bazibuzisa ukuba angalibazisa njani xa kukho ixesha elimiselweyo, ndiza kuthi nje -KUKHO ixesha elimiselweyo kwaye libekiwe kwaye libekiwe kwasephakadeni. UThixo akatshintshi isicwangciso. Ukulibaziseka yinto nje ayibekileyo kwipuzzle yakhe yexesha lokuphela ukubonisa umhlaba ubabalo, inceba, nokuzeka kade umsindo kwakhe ehlabathini. Kukhe kwakho amaxesha amaninzi xa iNkosi ibinokuzisa isigwebo sayo esiya kuthi sizalisekise iZibhalo, kodwa iqhubekile ilibazisa ukuze abantu abaninzi beze eBukumkanini bayo kwaye yenze ukuba imihla yeMbandezelo Enkulu ibe mfutshane ngokweZibhalo. . UnguBawo onothando, hayi

uBawo onomsindo. Unomsindo esonweni, kodwa enothando kuko konke akwenzileyo, engafuni ukuba kutshabalale mntu kodwa bonke babe nobomi obungunaphakade ngoNyana wakhe.

Siphantsi nje kwiinyanga nje ezimbalwa phambi kokuBuya kwesiBini kukaKrestu emhlabeni ngoDisemba 5, 2021. Liselincinane ixesha eliseleyo. Sinokubona kwiSityhilelo 14 ukuba kukho imicimbi emibini yokuvuna. Eyokuqala ibandakanya intlahlala enikelwa eNkosini kwaye eyesibini inxulunyaniswa nesivuno seediliya, esingasikhomba kuMthendeleko wemiNquba okanye eHanukkah (umthendeleko weTabernakele wesibini). Ezi zeziganeko ezimbini zokuqala zoSityhilelo. Ndiyakholelwa ukuba owona mhla wokuqala wokuxhwilwa ngu-Okthobha 24, 2021, kunye noxhwilo lwesibini ngoNovemba 28/29, 2021, ekuqaleni kweHanukkah. Nceda ufunde incwadi yam ukuze uqonde ukuba kutheni ndikholelwa ukuba iZibhalo zisalatha kule mihla mi-2.

IZibhalo azifundisi ukuba onke amaKristu athatyathwa kwiziqhamo zokuqala uxwilo. Abo basulungekileyo ezintliziyweni kwaye bamthanda ngokwenyani uKristu ngentliziyo, ngomphefumlo, ngengqondo nangamandla abo kwaye bathande abanye njengoko bezithanda ngabo baya kuvunwa. Kuya kubakho ixesha lokuhlanjululwa kwabangcwele ngasemva abangazange babeke uKrestu kuqala kwaye bavumela isono ebomini babo esibahlule neNkosi. Kungelo xesha ngeli xesha lembandezelo enkulu apho kuya kugunyaziswa uphawu lwerhamncwa, okanye ugonyo lwe-COVID. Isibhalo sicacile ukuba abo bathabatha olu phawu baya kulahleka ngonaphakade. Ukuba sele ukhohlisiwe ngokuthatha "olu gonyo", nceda uguquke kwaye ndiyakholelwa ukuba iNkosi ingakenzela inceba ukuba uyenze ngokungazi ngokupheleleyo kwaye uyala ukubhalisela "ipasipoti yokugonya" okanye "ikhowudi ye-QR" okanye nantoni na zeza nokukuvumela ukuba uthenge okanye uthengise ukuba ugonyiwe. Khetha ukubandezeleka kunye "nokungagcinwanga" kwaye ubonise intliziyo yakho eguqukileyo ngokwala ukwamkela icebo labo elibi. Kuvavanyo lokugqibela lokuthobela kunye nokuzimisela ukuncama ubomi bakho. Ngokukhawuleza emva kokuphela kwembandezelo enkulu, ilanga lenziwe mnyama, inyanga ayiniki kukhanya kwayo kwaye iinkwenkwezi ziyawa esibhakabhakeni ngoDisemba 4, 2021.

Ndiyakholelwa ukuba abaphambukeli enzonzobileni bazakavela ngexesha lolilo lokuqala loxhilo ukukhohlisa abo bashiyeka ngasemva. I-Asteroids okanye i-meteorites iya kuqala ukubetha emhlabeni ibangele intshabalalo enkulu kunye neetsunami kunye nezinye iintlekele ezithi iZibhalo zisilumkise ngazo zonke izinto eziqala ukwenzeka ngo-Okthobha ka-2021. Abantu bazokoyika ukushiya amakhaya abo okanye baye emsebenzini, njengoko uYesu watshoyo. kuthi ilixa elizayo xa kungekho mntu unako ukusebenza. Oku kuyakubangela ukuwa okukhulu kwezoqoqosho, kubi kakhulu kunale

nto siyibonayo ngoku, kwaye indlala izakubeka amakhulu ezigidi zabantu kwihlabathi liphela abangakulungelanga konke okuzayo.

Ndiyathemba kwaye ndiyathandaza ukuba niyabona kule phazili uthando kunye nenceba kaThixo engakholelekiyo, ninciphisa iintsuku zembandezelo enkulu ukusuka kwiinyanga ezingama-42 ukuya kwiintsuku ezingama-42 kuphela. KwisiTyhilelo 12, sifunda ukuba uMtyholi ugcwele ingqumbo kuba uyazi ukuba ixesha lakhe lifutshane. Ukuba iNkosi yayimnike iminyaka emi-3½ ukuba ayitshabalalise le planethi, ngekungekho namnye umntu obephila ukuba abone ukubuya kweNkosi emhlabeni ngoDisemba ka-2021. , Kuya kufuneka banyamezele kwiintsuku ezingama-35. Kuya kubakho ixesha lomgwebo leentsuku ezingama-40 eliza kuqala kwakhona ngomhla we-17 weChesvan kwaye liphele ngexesha leHanukkah nge-3 kaDisemba, 2021. Ngokukhawuleza emva kwembandezelo, ilanga lenziwe mnyama, inyanga ayinikeli ukukhanya kwayo neenkwenkwezi ziwe Isibhakabhaka nge-4 kaDisemba ka-2021

. Sazi njani ke ukuba ichanekile le nto kwaye ayisekho iminyaka emi-3½ yoMbandezelo Enkulu ezayo? Jonga imiqondiso esibhakabhakeni. U-Yesu usixelele ukuba ilanga liza kwenziwa mnyama, inyanga ayiniki kukhanya kwayo kwaye iinkwenkwezi ziya kuwa ezulwini xa ebuya nabantu baKhe ukuqala iMillenium eNtsha. Siyazibona iinyanga zegazi ngeentsuku zomthendeleko wamaJuda ukusuka ngo-2013 ukuya ku-2015 kunye nokusithwa kwelanga ekuqaleni konyaka weBhayibhile kunye noMthendeleko weXilongo ngo-2015 wasikhomba ekuqaleni koSuku lweNkosi ekupheleni kuka-2015 ukuya esiphelweni. ka-2016. Kodwa sasingenalo uphawu lokuBuya kwesiBini olufumaneka kuMateyu 24 ngelo xesha, lubonisa ukuba iNkosi yayihlala isazi kwaye icwangcisa ukuba izakuyiyeka i-70thkaDaniel yevekiphakathi iphinde iphinde iyiqale emva kweminyaka emi-4. Wayekufihla konke oku eLizwini lakhe njengepuzzle enkulu, elinde ixesha apho ekugqibeleni singazidibanisa zonke kule mihla yokugqibela. Kwaye emva koko, kumjikelo omkhulu wokugqibela kwipuzzle yakhe emangalisayo, Wongeze8 usuku lwe-ka-70 kaDaniel kwivekikwaye wabeka uphawu olufanayo kwakhona ngexesha leHanukkah esalibona ngo-2020.

Ndikholelwe, ukuba ushiyeke ngasemva kwaye kufuneka unyamezele iNkulu Imbandezelo enkulu, uza kuba nethemba lokwenene kwaye uthandaze ukuba eli xesha lexesha lichanekile kuba liya kuba libi kakhulu kunayo nantoni na onokuyicinga kwaye uninzi lwabantu alunakuphila ngaphezulu kweentsuku ezingama-40. USathana unikwa igunya elilahlekileyo kwaye ukulungele ukutshabalalisa umhlaba kunye nawo wonke umntu okuwo. UMtshakazi kaKrestu uza kuthweswa isithsaba somlawuli-wobuso emhlabeni ngomhla we-7 weHanukkah ngonyaka ka-2021, ongumhla wama-266 wonyaka weBhayibhile. Ixesha lokumitha lomntu lihlala kwiintsuku ezingama-266 ukusuka ekukhawulweni ukuya ekuzalweni. Uya kutyhilwa kwihlabathi ngomhla we-7 weHanukkah, njengasemtshatweni wamaJuda, uMtshakazi utyhilwa kwiindwendwe

ezilindileyo ngomhla we-7 womtshato xa kususwe isigqubuthelo sakhe. Ibhayibhile ithi yonke indalo ilinde ukutyhilwa koonyana bakaThixo.

Kwabo kuni babonisa umda wexesha owahlukileyo kunale ndiyiyo, ndingathanda ukukubuza nje ukuba umda wexesha lakho ubandakanya umqondiso welanga elenziwe mnyama, inyanga inganikeli ukukhanya kwayo kunye neenkwenkwezi eziwa esibhakabhakeni ekupheleni kukaDanielyama-70 Iveki? Kwaye ngaba ikwabandakanya neenyanga zegazi nokusithwa kwelanga yinyanga ukusuka ngo-2013 ukuya ku-2015, kukhomba kuMhla weNkosi wokuqala owawuza kuqala ekupheleni kuka-2015? Ngaba uyifumana ngokungqinelanayo ukuba imihla emi-2 ekhankanywe kuHagayi 2 ngokubhekisele kwiNkosi egungqisa izulu nomhlaba nokuzisa izinto ezingwenelekayo kuzo zonke izizwe yayiyimihla emi-2 eyonyulwa ngu-Obama emva koko yafumana i-Nobel Peace Prize ngo-2009? Kwaye kanye emva kweentsuku ezili-1260, umnumzana u-Obama wema kwindawo ethathelwa ingqalelo ngamakhulu ezigidi zamaKristu kwihlabathi liphela njengeyona ndawo ingcwele emhlabeni kwaye wayeka umbingelelo wemihla ngemihla wokudumisa nokunikela umbulelo kungenzeki ngalomini? Kwaye kwenzeka nje ukuba ibe-11 ngumhla wekuNisan kwikhalenda yamaJuda, kanye ngala mhla uYesu wathetha ngawo nabafundi baKhe ngamasikizi abangela intshabalalo? Kwaye ndicinga ukuba ikwayinto nje eyenzeka ngengozi ukuba ukubala umva ngeentsuku ezingama-1335 ukusuka ekuqaleni kweHanukkah ngo-2016 kunye neentsuku ezili-1260 ukusuka kuMhla wokuhlawulelwa ngo-2016 kukusa ngoMeyi 2, 2013, owaphela unyaka weentsuku ezingama-40 kunye no-3- Ukuzila ukutya kosuku lokuba uThixo abenzele inceba iMelika, zombini ezi zinto zifanekisela kwangaphambili eZibhalweni njengexesha apho umgwebo walibaziseka saza isizwe sasindiswa. Ngaba umda wakho wexesha ukwabandakanya ukufinyezwa kweentsuku ezichazwe nguYesu kuMateyu 24 kunye nokulibaziseka koMyeni kuMateyu 25 nakwiSityhilelo 10? Ukubuyela kum umbuzo wam wokuqala kunye nowona ubalulekileyo- ngaba umda wexesha lakho ubonakalisa umqondiso welanga, inyanga inganiki ukukhanya kwayo kunye neenkwenkwezi eziwa esibhakabhakeni ngexesha lokuBuya kwesibini kukaKristu emhlabeni kumnyhadala wamaJuda? Ukuba akunjalo, umgca wexesha lakho alichanekanga. Kuya kufuneka udibanise zonke iZibhalo ukuze ubone yonke iphazili. Isibhalo sichaza isiBhalo kunye nesiBhalo akunakwaphulwa. Iziqwenga kufuneka zonke zingene endaweni okanye ixesha lakho alichanekanga.

Ubusuku sele buza kuwela kulo mhlaba kwaye sele ubona ukuba ilanga liyatshona. Abantu abaninzi abasenako ukuya emsebenzini kwaye liyeza ixesha apho kungasayi kubakho mntu unokusebenza. UYesu, ukuKhanya kweHlabathi, sele eza kuthatha uMtshakazi waKhe omhle noqaqambileyo, kananjalo nokuKhanya kweLizwe, ukuba abe kunye naYe, kwindawo amlungiselele yona ngaphandle kwenyoka, emva koko ubumnyama okanye ubusuku buya uwe emhlabeni. Uye wayokulungiselela uMtshakazi wakhe indawo kwaye uyakumamkela kuye ukuze abenaye. Ukuba awukakulungeli

ukuma phambi kweMvana ngentliziyo emsulwa njengoMtshakazi oqaqambileyo, ndiyakucela ukuba ukhangele iNkosi xa isenokufunyanwa. Lungiselela oko kuza kwenzeka kulo mhlaba. Lungiselela ukudibana neNkosi. Lungiselela abo banokushiyeke ngasemva. Shiya izixhobo zam ukuze bafunde. Lungisa ukutya namanzi kunye nezinto eziyimfuneko kuba ixesha likufutshane kakhulu xa bengayi kuba nakho ukuthenga, ukuthengisa okanye ukurhweba ngaphandle koPhawu lwerhamncwa. Buza uYesu entliziyweni yakho namhlanje ukuba awukenzi oko. Ukuba kunjalo, mcele atyhile nasiphi na isono ebomini bakho esikuthintela ukuba uhambe ngokupheleleyo kuMoya waKhe kunye novuyo losindiso lwaKhe. Akunyanzelekanga ukuba eli ibe lixesha eloyikisayo. Eli lixesha lokuvuya ukuba ungowomtshakazi kaKrestu! Abantu bazilungiselele, uYesu uyeza kwaye kungekudala sizakugoduka. I-Millennium eNtsha ingaphantsi kweenyanga ezi-4 ikude kwaye siyakuthi sithweswe isithsaba sobukhosi bomhlaba kunye noKumkani wethu uYesu iminyaka eli-1000. Abalulamileyo baya kuwudla ilifa umhlaba.
